

From Eyesight to Insight: Visual Assessment and Treatment

Stan Appelbaum, OD, FCOVD

Carl Hillier, OD, FCOVD

Mary Kawar, MS, OTR

Description:

This workshop provides a practical opportunity for participants to interact with a sensory integrative occupational therapist and developmental optometrist as they collaborate on the goal of facilitating optimum performance in children with movement and vision issues. Speakers will reveal and clarify some of the mysteries of previously ambiguous performance issues in childhood. Participants will develop a broader net for capturing the subtleties of visual-vestibular behavior by gaining insight into underlying causes. Hands on experience will provide ample opportunities for everyone to learn how to administer a vision screening examination. Comprehensive treatment protocols will be shared so that therapists are exposed to a broad range of practical, innovative, sequential vestibular-visual activities and exercises for use with their clients.

Objectives: Participants will be able to

1. Administer a vision screening examination.
2. Refer clients for optometric evaluation effectively using standardized criteria.
3. Demonstrate powerful treatment strategies that utilize the vestibular-oculomotor-cervical triad.
4. Describe the paradigm shift that indicates that functional performance is driven by vision and movement.

Eyesight to Insight 2008 Schedule

dates and locations subject to change

Jan 25-26, 2008	Richmond, VA	<input type="checkbox"/>	Mar 14-15, 2008	Houston, TX	<input type="checkbox"/>
Apr 11-12, 2008	Albany, NY	<input type="checkbox"/>	May 9-10, 2008	Portland, OR	<input type="checkbox"/>
July 18-19, 2008	Charleston, SC	<input type="checkbox"/>	July 25-26, 2008	Memphis, TN	<input type="checkbox"/>
Aug 1-2, 2008	New Jersey	<input type="checkbox"/>	Oct 10-11, 2008	Charleston, IL	<input type="checkbox"/>
Nov 7-8, 2008	Los Angeles, CA	<input type="checkbox"/>
